When You Buy A Refrigerator

The best is the cheapest in the end. That is why we recommend the Alaska Refrigerator. We know that it has every conceivable feature for the successful preservation of food at the minimum of ice consumption. It is a beauty and its sturdy construction is a guarantee of many years of satisfactory service. Yet Alaska refrigerators cost no more than ordinary ice boxes. And they are much better.

—Investigate our Budget Plan

We like to explain our Budget Plan. It proves so helpful to folks who are ambitious to own a New Edison. The Budget Plan puts **The NEW EDISON** "The Phonograph with a Soul" into your home at once. Then it applies the established principle of big business—systematic spending. It takes the purchase price out of your income so gradually that you don't have to "squeeze" at all. Come in and learn all about it.
